

Home/School Communication

We believe that the children gain considerably when parents and staff work closely together. Children react to their parent's enthusiasm and appreciate them taking an interest in their school life.

The school welcomes parents into school to talk to members of staff and we are usually able to meet informally before or after school. If parents want more private discussions, a meeting may be arranged although prior notice would be appreciated.

Parents are sent a school report towards the end of the Summer Term. Parents' Evenings take place throughout the year, in October and April, when children's work is available to view and discussions are held with class teachers.
